

SIMPLIFY AND SECURE THE ACCESS TO YOUR APPS
NEW E-VISOR TEAMS APP CAPABILITIES

Synergy Advisors’ E-Visor Teams App is a centralized place to involve and empower your end users in the security and productivity of the organization, while ensuring identity governance, all inside Microsoft Teams.

INTRODUCING ‘MY APPS’
New functionality available on E-Visor Teams App that brings a centralized view of all your applications from one single dashboard:

HIGHLIGHTED FEATURES

- Single view for all apps, filtered by categories
- No need for data migration
- Azure AD integration with other cloud providers
- Strong visibility for IT administrators of access and usage of the apps, across the organization through segments
- Single point of access to your apps

SOLUTION BENEFITS

- Easy access to manage all your apps, whether they are SaaS, Office, on-premises, or any cloud provider
- Effectively measure adoption and usage of your apps (active users, sign-in activity, frequency, and more.)
- No premium subscriptions required
- Experience for end users, team leaders and IT administrators
- Strategic analytics and reports via Power BI
