## Endpoint Protection

Do your end-users know if their devices are at risk?

Provide end-to-end protection for your devices with a multi-layered strategy, including user involvement, to significantly increase endpoint security.

Of IT professionals found that the frequency of endpoint attacks had increased since the previous year.

### Best of two worlds

Fast, cost-effective findings and recommendations

Endpoint management and security has gone beyond your network and dealing with sophisticated cyber threats presents quite a challenge. Informing IT and cyber security about potentially compromised devices is not enough; educating and alerting end users once a potential issue occurs is critical.

**We can help you simplify your end-to-end device health strategy and engage your end users to reduce help desk calls while strengthening your security posture**

### Notify users

A user who does not know if their devices are compromised is a risk vector

### Empower users

Educated end users can take the right action at the right time, saving help desk resources

### Involve users

Every user needs to be a brick in the firewall

## The process

### Review

An expert will analyze your current endpoint configuration, activity, and strategy.

### Install and improve

**E-Visor Teams app**, in conjunction with MDE and AADP, will notify, inform, and secure end-users.

### Findings and action plan

We review the analyzed results, along with a prescriptive action plan with you in two efficient, one-hour meetings, giving you high ROI at low cost.

**Important:** all EDO offerings run in your Azure tenant subscription, so the collected data is all yours!

## Prerequisites

### Quick and Easy

Fast and thrifty. No premium subscriptions required.

Up to one workload

**Total Time:** 1 week

**Required client time:** ~8-12hs across four meetings

Microsoft Azure (Free option: Azure Pass)

Microsoft Defender for Endpoint (Trial available)

## Results

### Action Plan Roadmap

Co-creation of an expert plan for your specific scenarios, potential impact analysis, and mitigation steps.

### E-Visor for Teams app metrics

Metrics with service risk and improvement areas with consulting by a Synergy Advisors endpoint protection expert.
