

What is E-Migrator?

The task of migrating from Zoom or other platforms to Microsoft Teams requires control over the calendar of all users, recurring meetings and the internal calendar of Zoom; only then can a fully manual migration begin.

E-Migrator is a Synergy Advisors solution that provides **third-party vendor migration to Microsoft 365 and Azure workloads**. E-Migrator also optimizes your migration from **Zoom**, or other collaboration platforms to **Microsoft Teams**.

Modern Work and Collaboration

«

What can you do with E-Migrator?

»

Meetings

- Migrate past and future meetings, including chats and recordings.
- Usage and future meetings details and analytics.

Collaboration

- Recreate groups and channels within Microsoft Teams.
- Keep traceability and improve collaboration.

Reporting

- Centralized information with past activity and future information.
- Correlation of users by group, department, and more using AAD.

**Analytics**
Used and future details

+

**Savings**
Migrating 5K users represent savings of > 750K

+

**Productivity**
Centralize everything to one platform

Zoom to Teams migration

Meetings

- Discover past and upcoming calls.
 - Migrate meeting recordings (stored in the cloud).
 - Migrate past meetings chats.
- Migrate upcoming calls.
 - Change meeting connection.
 - Maintain the invite content/attachments.

Groups

- Discover and migrate groups.
- Migrate participants.
- groups that do not exist in AAD.

Channels

- Discover and migrate channels.
- Migrate participants.

Migration process

3. Migration and validation

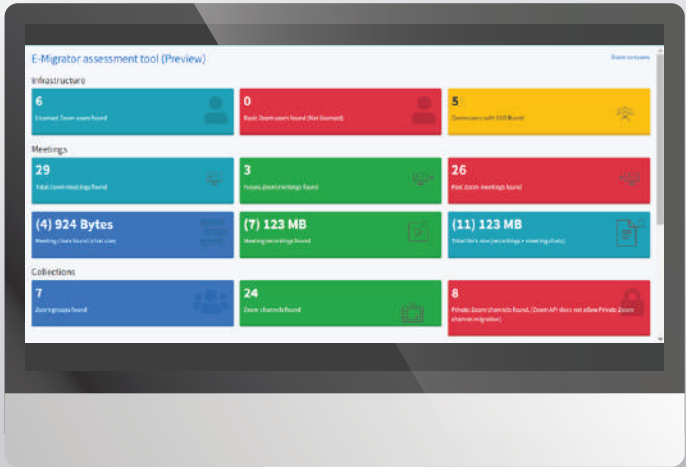

Programmed by customer

- Initial phased-migration activities.
- Post-migration analytics report.
- Discover any continued use of Zoom in the organization.
- Migrate remaining users.

Begin your migration with our assessment tool

E-Migrator assessment tool is a feature aimed at providing an up-to-date status of the Zoom environment, delivering valuable information such as:

- Number of licensed users
- Information about meetings, such as:
 - Past and upcoming meetings
 - Recordings
 - Chats
- Created resources, such as:
 - Channels
 - Groups

Post-migration analytics

Synergy Advisors complements your migration strategy and facilitate decision making with **rich analytics from intuitive and complete PowerBI reports** that you can use to:

Review...
initial phased migration activities.

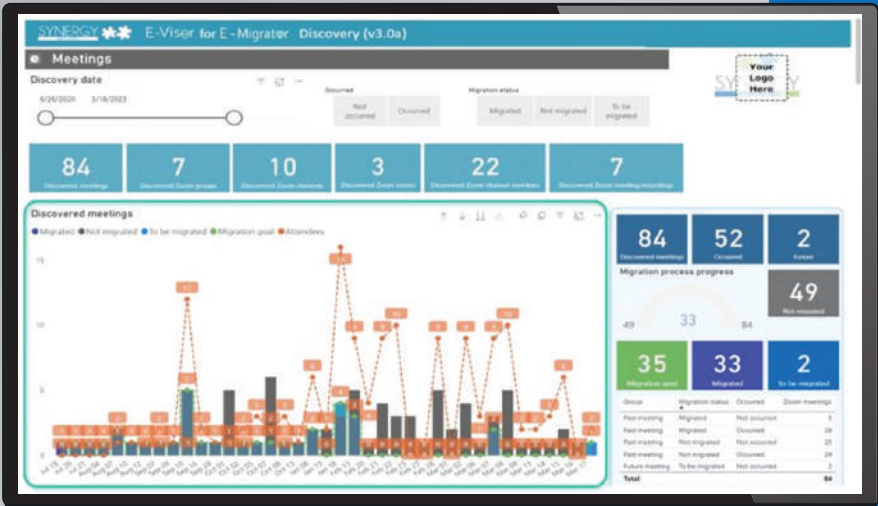

Understand...
post-migration analytics.

Discover...
any continued use of Zoom in the organization.

Remediate...
users missed in the migration.
