

Synergy Advisors – Microsoft Security Copilot – PoC-in-a-box

A next-gen AI-powered security solution for enhanced efficiency and capabilities: improve security outcomes at machine speed and scale.

This comprehensive and highly customizable PoC is meticulously crafted to provide extended access to cutting-edge technology and empower your team with the expertise necessary to fully leverage Security Copilot capabilities against your specific use cases.

Security Copilot PoC-in-a-box overview

Within the PoC-in-a-box, we build out a Security Copilot infrastructure, in your sandbox environment or one hosted by Synergy, that matches up to the environment, requirements, and scenarios of your prospective real-world deployment. If you are looking to validate Security Copilot for your organization, this PoC offering replicates your use cases prior to a production implementation.
[Up to one week]

Scope

- Evaluate and validate your unique use cases and requirements in a customized, isolated lab environment.
- Implement scenarios for two core embedded or Microsoft agentic experiences [Up to 2 use cases].
- Enable and configure required plugins.
- Implement one automation workflow for a use case scenario.
- Security Copilot knowledge transfer sessions.
- Best practices for prompting and prompt enrichment (prompt engineering) with knowledge bases.
- Security Copilot usage monitoring during PoC-in-a-box phase, providing an estimation of SCUs required for production.
- Findings and recommendations.

Deliverables

- **Knowledge transfer**
 - Describe recommended practices and lessons learned.
- **Working Sessions**
 - Solution design discussions
 - Learn how Security Copilot can achieve the unique security needs of your organization.
 - Synergy Advisors' findings and recommendations.
- **Document Deliverables**
 - High level design
 - A presentation about how Security Copilot can achieve your unique security needs.
 - PoC Guide
 - A customized step-by-step document outlining how to validate the unique use cases identified for your organization in the PoC environment.
- **Lab environment**
 - A customized environment representative of your proposed architecture and built to meet your requirements, either in your tenant or access to a Synergy-hosted environment.

What's Included in this PoC-in-a-box

Crafted with a keen focus on augmenting your security infrastructure, this offering represents a pivotal step towards maximizing the potential of Security Copilot. Our tailored approach ensures that your organization receives cutting-edge technology and personalized assistance, empowering you to navigate the ever-evolving cybersecurity landscape with confidence and efficiency.

Additional information

- This engagement is tailored for technical decision makers and IT professionals.
- Experience in managing Microsoft 365 security solutions recommended.
- Technical support and guidance will be provided throughout the PoC-in-a-box sessions.
