AI AGENT GOVERNANCE

Expert-led events and webinars on Agent 365 governance

Agent adoption is outpacing governance decisions

Interest in agents is real, but there is no consolidated view of what they are, no one approving their access, and adoption inside Microsoft 365 is moving faster than the governance decisions behind it.

Decision makers need to know which agent risks apply to them, what business impact they carry, and which controls mitigate them, before agents scale across the organization.

Across the market, the size of that gap is already measurable:

BLIND SPOTS

82%

...discovered unknown agents in the past year

Cloud Security Alliance & Zenity, 2026 (n=445)

ACCESS CREEP

53%

...have had agents exceed their intended permissions

Cloud Security Alliance & Zenity, 2026 (n=445)

POLICY GAP

31%

...have formally adopted an agent policy

Cloud Security Alliance & Zenity, 2026 (n=445)

Before you commit, the risks have to be understood.

That is what our E-nsights experience delivers, in a single expert-led session, in a business or a technical track.

Introducing Synergy Advisors Agent 365 E-nsights

E-nsights is the Events & Webinars experience Synergy Advisors built for this moment: an expert-led session on the best practices for agent risk mitigation, governance and management, with the content tailored to your maturity and priorities beforehand.

It exists so you understand the risks, their business impact, and the controls that mitigate them, and decide with clarity before adoption. Delivered as a webinar or on site for executives at Level 200 (BDM) and technical teams at Level 300 (TDM) – the next page details how the sessions run.

- Agent discovery, governance, security and compliance, covered end to end.
- The controls that mitigate each of the most common agent risks, walked through by an expert.
- Up to 3 common agent use cases reviewed, and where they break down in practice.
- Live demonstrations on prebuilt agent scenarios, plus integration with other technologies.

Agent 365 (A365) – Key Scenarios

CORE

Observe Agents and Prevent Sprawl
Consolidated view of every agent across platforms, with ownerless and at-risk agents spotted

Onboard Agents with Least-Privilege Access
Approval templates, Entra Access Packages, sponsor validation and Conditional Access

Govern Agent Tools
Govern tools invoked by agents that access different resources or apps, like Outlook and SharePoint, with every action audited

Protect Against Data Oversharing and Risk
Purview DSPM for AI, DLP and Communication Compliance over agent access to sensitive data

Defend Against AI Threats and Vulnerabilities
Prompt injection incidents investigated, compromised agents contained, MCP tools hunted

Audit, Compliance, and Agent Lifecycle
Audit trail exported, non-compliant agents blocked or deleted, records held under retention

Discover and Control Local AI Agents
IDE extensions, CLIs and code editors running as local agents detected on managed devices, unapproved ones blocked with Intune

BETTER TOGETHER

Agent 365 + Defender for Endpoint
Endpoint agents discovered and investigated

Agent 365 + Microsoft Sentinel
Detection, hunting and incident response

Agent 365 + Defender for Cloud
Grounding data and attack path risks

THIRD-PARTY AGENTS

LangChain
Brought under Agent 365 governance and lifecycle

LangGraph
Onboarded with the SDK, same observability and controls

Google ADK
Registered with the SDK, identity, owner, and full observability

Amazon Bedrock AgentCore
Connected platform plus deep integration by our experts

E-nsights (Events & Webinars) Experiences

EXECUTIVE SESSION (BDM)

Up to **2h** PER SESSION

Up to **3** USE CASES

Executive Session (BDM)

- ✓ Expert best practices for agent risk mitigation, governance, and management
- ✓ Clear view of the most common agent risks, controls, and use cases
- ✓ Business impact framed before you commit to adoption or implementation

TECHNICAL SESSION (TDM)

Up to **3h** PER SESSION

Up to **3** USE CASES

Technical Session (TDM)

- ✓ Expert-led walkthrough of the controls that mitigate the most common agent risks
- ✓ Up to 3 common agent use cases reviewed, with live demos of governance in action
- ✓ Informed starting point defined before moving into adoption or implementation

Scope & Deliverables

Executive Session (BDM)

IN SCOPE

- ✓ Up to 1 session of up to 2 hours, business format
- ✓ Delivered as a webinar or on site, led by a governance expert
- ✓ Content tailored to your maturity and priorities beforehand
- ✓ Unlimited participants by webinar; venue capacity for in-person events

OUT OF SCOPE

- × Additional sessions or follow-up workshops
- × Changes or configuration in any environment
- × Hands-on labs, deep dives, or assessments
- × Custom development or integrations

DELIVERABLES

- ● Session deck with key concepts and visuals
- ● Full recording, handed over within 1 week

Technical Session (TDM)

IN SCOPE

- ✓ Up to 1 session of up to 3 hours, technical format
- ✓ Up to 3 common agent use cases reviewed, and where they break down
- ✓ Live demos on pre-built scenarios, plus integration with other technologies
- ✓ Content tailored to your maturity and priorities beforehand

OUT OF SCOPE

- × Additional sessions or follow-up workshops

- × Hands-on labs, deep dives, or assessments
- × Custom development or integrations

DELIVERABLES

- ● Session deck with key concepts and visuals
- ● Full recording, handed over within 1 week

NEW · THIRD-PARTY AGENTS

Agent 365 beyond Microsoft

AWS, Google Cloud, LangChain, and LangGraph agents, governed in the same Agent 365 control plane as Copilot. Our experts validate and extend what Agent 365 covers out of the box, so every agent meets five conditions.

PLATFORM	DISCOVERY	IDENTITY	SECURITY PROTECTION	DATA PROTECTION	TELEMETRY
Amazon Bedrock AgentCore AWS	Out of the box	Not covered	Partial	Not covered	Partial
Google ADK Gemini Enterprise Agent Platform	Out of the box	Not covered	Partial	Not covered	Partial
LangChain Open source	Not covered	Not covered	Not covered	Not covered	Not covered
LangGraph Open source	Not covered	Not covered	Not covered	Not covered	Not covered
With Synergy Advisors experts Agent 365 SDK · Entra Agent ID Purview · OpenTelemetry	Validated & extended	Validated & extended	Validated & extended	Validated & extended	Validated & extended

Out of the box — Native in Agent 365 (registry sync)
Not covered — Needs Agent 365 SDK integration
Partial — Read-only signals, no code-level controls
Validated & extended — Integrated and tested by our experts

Microsoft delivers, Synergy Advisors extends

Discovery	Every agent registered in Agent 365, with an accountable owner and sponsor.
Identity	Its own Microsoft Entra Agent ID and risk-based Conditional Access.
Security protection	Defender Advanced Hunting and Microsoft Sentinel, one SOC response.
Data protection	Purview DLP checks every prompt and response in real time.
Telemetry	Who uses each agent, how often, and how much, with OpenTelemetry.

On AWS and Google Cloud: from visibility to enforcement

Agents stay where they run. On Google Cloud, ADK callbacks send prompts to Purview.

LEVEL 1

Connected visibility

- ✓ The agent appears in Agent 365
- ✓ Activity synced from Amazon CloudWatch
- ✓ Operations in Defender Advanced Hunting

LEVEL 2

Deep integration

- ✓ Real-time Purview DLP on every prompt
- ✓ Sensitive content blocked
- ✓ DLP evidence in Activity explorer

New · E-mmersion Dev Track

A hands-on lab for developers and platform teams (level 400): onboard LangChain, LangGraph, and Google ADK agents with the Agent 365 SDK, Entra Agent ID, and least-privilege access.

Up to 4 hours (up to 8 in Plus) · In person or remote · English or Spanish · Preconfigured lab, no setup in your tenant

Coming next: more agent platforms and MCP server governance in Azure.

E-nsights

How the sessions run

01

Audience & Goals

Target audience and business goals confirmed before the session.

02

Content Tailoring

Materials adapted to your maturity and priorities.

03

Use Case Session

Capabilities, benefits, and high-impact scenarios covered, up to 3 use cases.

04

Live Demonstration

Demos on pre-built scenarios, plus integration with other technologies.

05

Open Discussion

Q&A and future areas of exploration identified.

06

Handover

Session deck and full recording delivered to your teams.

A Portfolio of Experiences, One Governance Journey

ALIGN & DESIGN

Create alignment and agree on the target model

- E-nsights
- E-nvision

EXPERIENCE & PROVE

Show it works, then prove it in a dedicated lab

- E-mmersion
- E-xplorer

VALIDATE & DECIDE

Validate functionality before production

- E-valuation

PILOT & SCALE

Move to production and extend governance

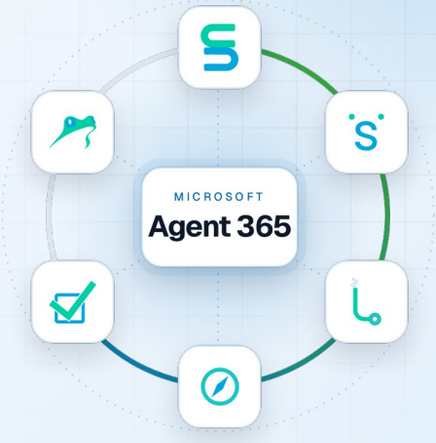

- E-Scuba

Decide With Evidence, Not With Assumptions

You leave knowing which agent risks apply to you, who must govern them, and the business impact of each one.

The question is no longer whether the risk is real, but which control comes first.

Let's take the next step together.
